

Parents and Students,

WVISED uses the Remind App for district communications. We will use the Remind App for the entire district to communicate school delays, school closures and other important information.

You may join the JH/HS school by texting to 81010 with the message “@wvisdhs”. This group will be used to communicate events that pertain to the JH/HS campus only.

You may join the Elementary school by texting to 81010 with the message “@wvisdelem”. This group will be used to communicate events that pertain to the Elementary campus only.

Teachers, sponsors and coaches may use the Remind App for communicating with smaller groups. Those groups will have separate links to join the class or group. Those links will be provided as needed by the teacher, sponsor and coach.

WVISED will still use our Facebook page to communicate with the school community. However, rarely do we reply to questions on our Facebook page. As always, you may contact the school by phone. If it is after hours or no one answers, then please leave a message.

Thank you,

Dane Hoover Principal of  
Students and Operations
